EXPERIENCE
TÊDÊCAR AUTOCARAVANAS LTD FRONT-END DEVELOPER ASSISTANT
April 2018 – November 2018, PORTUGAL
My role was to develop a Vue application that served as the frontend for an existing set of APIs that are connected to the company's CRM/order system.
My responsibilities included:
 * Set up a new Vue project, including source control.
 * Migrate old Windows forms to web forms.
 * Connect all the forms to the right APIs.
 * Modernize the overall look of the application, made it simpler to use, and removed fields that were no longer used or needed to be changed.

VADO ACCOUNT MANAGER
